(54) Title: FEEDING OF TONER

(57) **Abstract:** Device and method for feeding of toner powder to a manifold apparatus (1) comprising at least one toner container (2), which device (3) comprises at least one receptacle (4) for toner powder, a feeding device (5) and a delivery conduit (6) in communication with the receptacle (4). The invention is characterized in that the feeding device (5) is mechanical and that the delivery conduit (6) intended to be connected to the toner container (2) of the manifold apparatus (1), which toner container (2) is of optional design.
